**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:  

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
2. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 1 recites the limitations "the lower portion" in line 3, "the inner peripheral surface" in line 5, and "the outer peripheral surface" in line 6. There is insufficient antecedent basis for this limitation in the claim.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:  

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
5. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Potochnik US 5,491,928.
6. Regarding claim 1, Potochnik discloses a flowerpot having an automatic water feed function, comprising an outer pot (12) and an inner pot (14) provided with a water intake hole (34) at the lower portion thereof, wherein the inner pot is detachably fixed in the outer pot and a gap (30) between the inner peripheral surface of the outer pot and the outer peripheral surface of the inner pot constitutes a sealed space (Potochnik, Figure 3) that is isolated from the outside air.
